PROFESSIONAL SUMMARY

MERN Stack Developer with 9 months of active development experience building full-stack web solutions using MongoDB, Express.js, React.js, and Node.js. Experienced in RESTful API development, React Hooks, JWT authentication, and responsive UI design, including SplitEase, a live bill-splitting application deployed on Vercel. Brings 1 year 9 months of professional work experience at Fibe, a leading Indian fintech company with 10M+ users. Delivered 3+ projects independently, backed by structured MERN Stack training completed through Authrise (2025–2026). Available for immediate joining in full-time roles across India.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, React Hooks (useState, useEffect, useContext), Redux, Context API, Bootstrap, Tailwind CSS (familiar), Responsive Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, bcrypt, Mongoose ODM, MVC Architecture

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman, VS Code, npm, Vercel, Render

Concepts: CRUD, OOP, DBMS, REST Architecture, Data Structures & Algorithms

Soft Skills: Client Interaction, Cross-Team Collaboration, Technical Documentation, Deadline-Oriented

EXPERIENCE

MERN Stack Developer | Self-Initiated Projects (Remote)

Sep 2025 – Present

- Created web solutions using React.js on the frontend and Node.js with Express.js on the backend, handling 10+ API endpoints.
- Implemented JWT-based authentication and full CRUD operations across 3+ projects, validated using Postman.
- Designed and queried MongoDB databases using Mongoose ODM with structured schema design.
- Deployed projects on Render and Vercel with 100% uptime; managed source code with Git and GitHub.
- Structured code using MVC architecture and responsive design principles across 3+ projects, ensuring full compatibility across mobile and desktop devices.

Customer Service Executive | Fibe (Early Salary App)

Jul 2024 – Mar 2026

- Managed 50+ client interactions daily in English and Hindi, maintaining 95%+ customer satisfaction ratings.
- Resolved 50+ complex customer queries daily under strict KPIs, consistently meeting monthly targets in a fintech environment.
- Mentored 2 new team members on client interaction processes and internal workflows.
- Pursued a 12-month self-study roadmap in MERN Stack development, completing 3+ self-initiated full-stack projects, concurrently with full-time employment.

PROJECTS

SplitEase — Split Anything, Fairly | React.js

Jun 2026

- Built a free online bill splitting tool that handles 5+ categories of shared expenses — trips, rent, groceries, subscriptions, and more — not just restaurant bills.
- Implemented a Debt Simplification Algorithm that minimises settlement transactions for groups of 5+ members, using the same minimum-cash-flow logic as Splitwise.
- Engineered proportional tip and tax splitting with 100% accurate per-person allocation, based on each person's exact share of the total bill.
- Deployed live on Vercel with public GitHub repo; built entirely with React.js and custom CSS with zero paid tools.
- Live: splitease-beryl.vercel.app | GitHub: github.com/MahakDalwani/splitease

Portfolio Website | React.js + Node.js + MongoDB

2025 – Present

- Engineered 2+ responsive websites using HTML, CSS, and JavaScript as part of MERN Stack training.
- Prioritised clean UI design and cross-device compatibility across 3+ screen-size breakpoints (mobile, tablet, desktop).
- Live: <https://my-portfolio-t5wp.vercel.app/> | GitHub: https://github.com/MahakDalwani/my_portfolio

NLP Resume Analysis Tool | Final Year Project – JIT Nagpur

Aug 2022 – Jun 2023

- Architected an NLP classification pipeline in Python using NLTK and scikit-learn to categorise resumes across job domains.
- Applied tokenisation, stemming, stop-word removal, and TF-IDF vectorisation on 200+ resume samples.
- Achieved approximately 85% classification accuracy using a Naive Bayes classifier.
- Presented results to a faculty evaluation panel as part of final-year engineering coursework.

EDUCATION

Bachelor of Engineering – Computer Science Engineering | Jhulelal Institute of Technology, Nagpur

Jun 2023

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming.

CERTIFICATIONS & TRAINING

- MERN Stack Development – Authrise | 2025–2026 | Skills: HTML, CSS, MongoDB, Express.js, React.js, Node.js, REST APIs.

ADDITIONAL INFORMATION

Languages: English (professional proficiency), Hindi (native)

Availability: Immediate – open to full-time, contract, and remote roles across India
